

CrossLanguageMapping

September 4, 2026

CrossLanguageMapping

Kind: Interface

Source: atloria-monorepo/packages/doc-automation/src/v2/types/cross-language.types.ts

CrossLanguageMapping - Links frontend to backend for user journey docs

Example: When user clicks "Submit Order":

- React: OrderForm.tsx -> POST /api/orders -> Express/NestJS route
- Angular: OrderFormComponent.ts -> POST /api/orders -> .NET Controller
- Vue: OrderForm.vue -> POST /api/orders -> FastAPI endpoint

Properties

Property	Type
projectId	string
frontendStack	FrontendFramework
backendStack	BackendFramework
screenMappings	ScreenToApiMapping[]
apiCallPatterns	ApiCallPattern[]
