DocsViewer

Kind: Interface

Source: `atloria-monorepo/apps/api/src/reader-access/docs-visibility.service.ts`

Who is looking. `member` = org-staff JWT for the owning org (sees everything, mirroring the A3 member bypass); `attrs` = the reader token's D4 claims (anonymous = null/empty → only public content passes).

Properties

Property	Type
<code>attrs</code>	<code>`ReaderAttrs</code>
<code>member</code>	<code>boolean</code>
