

EntityDependencyGraph

September 4, 2026

EntityDependencyGraph

Kind: Interface

Source: atloria-monorepo/packages/doc-automation/src/v2/types/common.types.ts

EntityDependencyGraph - Tracks what code depends on what

Used to ensure we don't just extract a form, but also its validation schema, services, and state management.

Properties

Property	Type
nodes	Map<string, EntityNode>
edges	DependencyEdge[]
