

LoopState

September 4, 2026

LoopState

Kind: Interface

Source: `atloria-monorepo/libs/agent-core/src/autonomous/autonomous-loop.ts`

Tracks which "phases" the agent has entered based on tool calls.
Used to decide when to nudge. Exported so runners can inspect/display it.

Properties

Property	Type
<code>hasInvestigated</code>	<code>boolean</code>
<code>hasPlanned</code>	<code>boolean</code>
<code>hasActed</code>	<code>boolean</code>
<code>hasVerified</code>	<code>boolean</code>
<code>lastInvestigationTurn</code>	<code>number</code>
<code>lastActionTurn</code>	<code>number</code>
<code>consecutiveErrors</code>	<code>number</code>
<code>totalErrors</code>	<code>number</code>
<code>circuitBreakerBlocks</code>	<code>Record<string, number></code>
