

# ManualVideoManifest

September 5, 2026

## ManualVideoManifest

**Kind:** Interface

**Source:** `atloria-monorepo/packages/types/src/models/video.ts`

The producer contract: `videos/<slug>.video.json` written by atlorix. Paths are RELATIVE to the output dir ( `videos/...` ) until UploadService swaps them for CDN URLs. This is also the shape UploadService groups into a ManualVideo row.

## Properties

| Property                | Type                                      |
|-------------------------|-------------------------------------------|
| <code>slug</code>       | <code>string</code>                       |
| <code>locale</code>     | <code>string</code>                       |
| <code>voice</code>      | <code>string</code>                       |
| <code>video</code>      | <code>string</code>                       |
| <code>captions</code>   | <code>string</code>                       |
| <code>poster</code>     | <code>string</code>                       |
| <code>chapters</code>   | <code>VideoChapter[]</code>               |
| <code>durationMs</code> | <code>number</code>                       |
| <code>script</code>     | <code>ManualVideoScript</code>            |
| <code>gifs</code>       | <code>Record&lt;string, string&gt;</code> |
| <code>hotspots</code>   | <code>VideoHotspot[]</code>               |
