OpenChangeRequestDto

Kind: Interface

Source: atloria-monorepo/packages/api-client/src/endpoints/change-requests.ts

Payload for opening a change request.

`kind` is NOT sent: the API forces `kind: 'human'` for every client-opened CR (the 'regen' and 'agent' kinds are reserved for internal server callers), so it is not part of the client-facing payload.

Properties

Property	Type
<code>title</code>	<code>string</code>
<code>files</code>	<code>ChangeRequestProposedFile[]</code>
