

OutboxAuthor

September 4, 2026

OutboxAuthor

Kind: Interface

Source: atloria-monorepo/apps/api/src/docs-repo/outbox.service.ts

Who caused the content mutation an outbox event records. Travels INSIDE the event payload
(payload.author) — record()'s signature is unchanged — so the committer can credit a human
save as the git AUTHOR on the coalesced reconcile commit (S2.0 attribution).

Properties

Property	Type
userId	string
type	`human`
