

ParameterSchema

September 4, 2026

ParameterSchema

Kind: Interface

Source: [atloria-monorepo/packages/ui-core/src/components/api-explorer/RequestPanel.ts](#)

The subset of JSON Schema the parameter controls understand. Everything here already exists in the generated spec — it was simply never read, so every parameter rendered as an empty text box regardless of what the API actually accepts.

Properties

Property	Type
type	string
format	string
example	any
default	any
enum	any[]
minimum	number
maximum	number
minLength	number
maxLength	number
pattern	string
