PresetValues

Kind: Interface

Source: atloria-monorepo/packages/ui-core/src/components/api-explorer/RequestPanel.ts

Values restored from a permalink. Tagged with the operation they belong to, so a link that points at another endpoint — or a stale one left over from a previous selection — can never seed the form of the operation actually on screen.

Properties

Property	Type
operationId	string
pathParams	Record<string, string>
queryParams	Record<string, string>
formFields	Record<string, string>
body	string
