

ScreenApiMap

September 4, 2026

ScreenApiMap

Kind: Interface

Source: [atloria-monorepo/packages/doc-automation/src/v2/types/cross-language.types.ts](#)

Full Screen-to-API map for a component

The final output connecting UI to backend for documentation.

Properties

Property	Type
componentName	string
componentPath	string
route	string
apiCalls	`Array<

```
userAction: string; // "Click Save button"
serviceMethod: string; // "newJobService.createJob()"
httpMethod: string; // "POST"
endpoint: string; // "/api/sales/jobs"
purpose: string; // "Create new sales job"
triggerElement?: string; // "dx-button[text='Save']"
```

```
}> | | stateBasedCalls | Array<{
state: string; // "OrderStageEnum.Pending"
availableActions: string[]; // ["approve", "reject", "cancel"]
disabledActions: string[]; // ["createNew"]
}>` |
```
