ToolResult

Kind: Interface

Source: `atloria-monorepo/libs/agent-core/src/context/tool-result-manager.ts`

Tool Result Manager

Manages tool call results in the context window:

- Truncates results exceeding a token budget
- Clears results older than N turns
- Large outputs can be stored as files instead

Zero SDK imports — operates on our own interfaces.

Properties

Property	Type
<code>id</code>	<code>string</code>
<code>toolName</code>	<code>string</code>
<code>result</code>	<code>string</code>
<code>turn</code>	<code>number</code>
<code>tokenEstimate</code>	<code>number</code>
<code>truncated</code>	<code>boolean</code>
