

TraceSpan

September 4, 2026

TraceSpan

Kind: Interface

Source: `atloria-monorepo/libs/agent-core/src/tracing/otlp-exporter.ts`

OTLP Tracing Exporter

Generic: SDK TracingExporter → OpenTelemetry → Grafana.

Reusable by any agent (doc-automation, support AI, etc.)

Phase 6: Collects spans from the agent runtime and exports them in OpenTelemetry format.

Properties

Property	Type
<code>traceId</code>	<code>string</code>
<code>spanId</code>	<code>string</code>
<code>parentSpanId</code>	<code>string</code>
<code>operationName</code>	<code>string</code>
<code>serviceName</code>	<code>string</code>
<code>startTime</code>	<code>number</code>
<code>endTime</code>	<code>number</code>
<code>duration</code>	<code>number</code>
<code>status</code>	<code>`ok`</code>
<code>attributes</code>	<code>`Record<string, string`</code>
<code>events</code>	<code>TraceEvent[]</code>
