## VideoAssetsResolved

---

**Kind:** Interface

**Source:** [atloria-monorepo/packages/doc-automation/src/v2/stages/stage-13-upload/video-directive.ts](https://atloria-monorepo/packages/doc-automation/src/v2/stages/stage-13-upload/video-directive.ts)

A page's resolved (CDN) video artifact urls — persisted as provenance so a later videoOnly re-run can swap old → new in place.

### Properties

| Property | Type                   |
|----------|------------------------|
| video    | string                 |
| captions | string                 |
| gifs     | Record<string, string> |
