PersonUserController

Kind: Controller

Source: Pams/API/Pams.API/Controllers/Security/PersonUserController.cs (line 22)

Part of: Pams

Where it refuses work

- PersonUserController stops the work with an early return when `ModelState.IsValid` , in 3 places.
- PersonUserController stops the work with an early return when `string.IsNullOrEmpty(model.MachineName)` , in 2 places.
- PersonUserController stops the work with an early return when `!isDeleted` , in 2 places.
- PersonUserController stops the work with an early return when `!PU.HasObject` .
- PersonUserController stops the work with an early return when `!PU.Delete()` .
- PersonUserController stops the work with an early return when `model.UserDetails == null || model.UserDetails.Count == 0` .

When something fails

- PersonUserController handles failure in 8 places: it turns it into a return value in all 8.
