Maintain an existing Orders layout

Change displayed columns in an existing Orders layout and save, restore, or delete the layout as needed.

Before you start

- Relevant layout permissions are required to save, update, or delete a reusable layout.
- A reusable layout changes list arrangement only.

Steps

1. **Columns Chooser** on [Orders](#) — Allows selection of columns to display.

Result

Allows selection of columns to display. Confirm this on [Orders](#).
