## NotificationsPage — Overview

---

*Applications > NotificationsPage*

### Overview

NotificationsPage provides a central area for reviewing notifications across the business management platform. It supports users who need to monitor items related to sales, project management, purchasing, warehouse operations, finance, reporting, and personal work areas.

The page brings together notification categories and application areas so that Sales representatives, Account managers, Project managers, Purchasing officers, Warehouse managers, and Finance officers can focus on the information relevant to their responsibilities. It also provides access to Tickets and attachments where available.

### What you can do here

- Select **all** to view notifications across all available areas.
- Select **Tickets** to access ticket-related notifications.
- Select **Attach** to add an attachment where applicable.
- Select **Ok** to confirm or acknowledge the current notification.
- Select **Dashboard** to view dashboard-related notifications.
- Select **Reports, My Desk, Sales, PM, Purchasing, Warehouse, or Finance** to focus on notifications for the selected application area.
