Principal Dashboard — Overview

User Guide › Principal Dashboard

Overview

Principal Dashboard — Overview provides a central entry point for monitoring operational work across the platform. It is intended for users who need a high-level view of their current responsibilities and access to related work areas.

Sales representatives, sales managers, purchasing officers, warehouse managers, project managers, and finance officers can use this area to select available dashboard options and access tickets.

What you can do here

- Use **Select** to choose an available dashboard option.
- Open **Tickets** to access the Tickets area.
