Package

User Guide > Warehouse > List

Package

Overview

Use the Package list to review warehouse packages associated with unallocated products. Warehouse users use this view when they need to focus on products that are not yet allocated within the warehouse workflow.

Before you start

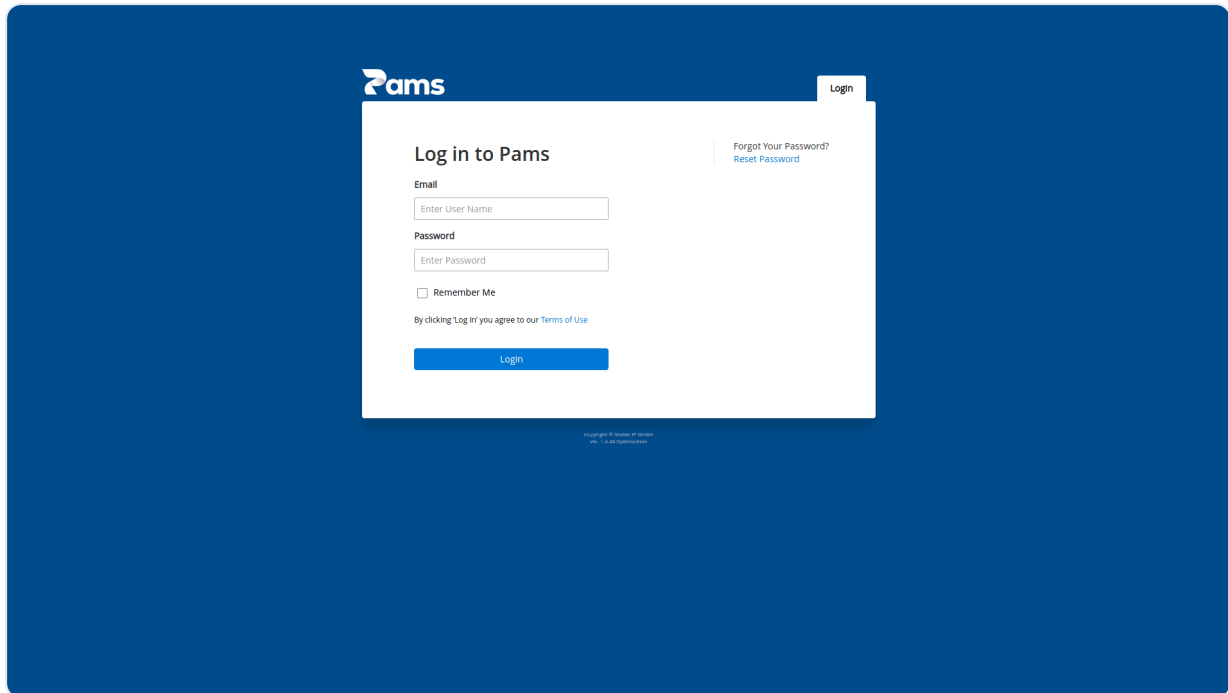

Ensure that you have access to the **Warehouse** area.

Steps

1. On the main navigation bar, select **Warehouse**.
2. Select **Unallocated products** to open the package stage for unallocated products.

Unallocated products

The **Unallocated products** stage displays packages associated with products that are currently unallocated. Use this stage to review the packages requiring allocation-related warehouse attention.

Package

Note: This page provides the **Unallocated products** stage for reviewing packages in that stage of the warehouse workflow.

Tips & cautions

Tip: Select **Unallocated products** when your warehouse work concerns products that have not yet been allocated.

Result

You have opened the Package list and viewed packages in the Unallocated products stage.
