

Learning Path: Business Services Visitor

August 25, 2026

About This Path

This learning path is for the **Business Services Visitor** who is exploring company registration, accounting services, startup packages, and related support in **Sherkety ERP & Website Platform**.

You will learn how to move through the public website, understand the main page types, compare service options, review trust and package information, and choose the best way to contact Sherkety.

This order matters because it starts with simple orientation, then helps you explore services and offers, and finally shows you how to ask questions, compare choices, and handle common browsing situations with confidence.

Prerequisites

Before you begin, it helps to:

- Open **Sherkety ERP & Website Platform** in your browser
- Be ready to browse public pages without needing an account
- Know the main topics you care about, such as accounting, company registration, startup support, or ERP options
- Set aside time to review several short guides in order
- If you prefer a specific language or display style, be ready to switch it while browsing

Your Learning Journey

1. [Browsing the Sherkety Public Website](#) — Start here to understand how a Business Services Visitor first moves through the public pages in Sherkety ERP & Website Platform.

6 min read | Beginner

What You'll Be Able to Do

After completing this path, you will be able to:

- Move through the public pages of **Sherkety ERP & Website Platform** with confidence
- Use header menus, footer links, breadcrumbs, and page sections to stay oriented

- Find accounting services, company registration guidance, and startup package information
- Understand the difference between service-focused pages and ERP-related offer pages
- Review homepage trust content, promotions, team highlights, and value sections more effectively
- Compare service options and package choices before contacting Sherkety
- Use language switching and display mode controls to browse more comfortably
- Recognize when content is loading, missing, or temporarily unavailable, and know what to do next
- Use contact forms, phone, email, WhatsApp, social links, and business details to reach the right team
- Read FAQ and policy pages to answer common questions before making an inquiry
