User Guide Overview

Welcome to the User Guide for **Sherkety ERP & Website Platform**. This page helps you find the right documentation based on what you want to do, whether you are browsing the public website, exploring ERP products, or managing content in the admin area.

Where to Start

If you are a website visitor

Start with **Public Website** for help with browsing pages, finding services, switching languages, using contact options, and understanding footer, FAQ, and legal content.

If you want to explore ERP products

Go to **ERP Product Discovery** to browse ERP apps, compare product areas, and review pages such as HR, Inventory, Sales & CRM, Reporting, and bundled website + ERP offers.

If you manage website content

Use **Administration and Editing** for sign-in, dashboard access, page editing, multilingual content updates, service management, pricing updates, SEO details, and site settings.

If you need a quick top-level path

Use **Public Experience** for visitor-facing discovery areas and **Admin Experience** for a simple starting point to authenticated admin workflows.

If your task spans several areas

Check **End-to-End Workflows** for guided business processes that connect multiple parts of Sherkety ERP & Website Platform.
